# Save on training costs and times with e-learning

Academy – the digital training platform for Körber equipment and solutions

**“I really enjoyed the training. So well structured and user-friendly. I wish I could take all my trainings in this way.”**

e-learning participant  
Senior Operator

**“Taking the e-learning before the regular SVIM training is really useful to get a better understanding and have a pre-knowledge about the difficult subjects. I can of course recommend this kind of training to other customers as it is really helpful to understand the topic.”**

Inspection Specialist

# Training that boosts your business

Within the pharmaceutical and biotechnology industry, speed is more important than ever. It is the key to a fast time-to-market for your products. Yet, this requires reliable and consistent processes to minimize risk while achieving the highest product quality and safety. At Körber, we understand the industry-specific challenges and regulatory requirements that companies face in this regard. That is why we have developed a flexible, interactive, and increasingly digital learning concept to support you. This is expertise training for all the stages of pharmaceutical and biotech development and production.

## Unlock the potential of your team

As we watch technology evolve even faster, it is all the more important that your employees stay on top of the latest developments. Investing in continuous, effective training is a key element for your success in the future. Digital learning is now a standard option and offers a comfortable solution for employees, saving regular commuting costs and traveling inconvenience.

Learning is not one size fits all. In addition to our standard in-house workshops and training courses, we offer a wide range of blended digital training methods. Our learning platform offers profound training with dedicated content created by our pharmaceutical, technical and training specialists.

Learning is more important today than ever, and with our global online courses, you can learn wherever you go.

## Flexible access and tailored learning methods

If your operators, electricians, mechanics or other technical specialists need a certified introduction to a new technology or process, or you want them to take their skills to a higher level of expertise, there's a course that will suit them all. We offer a wide range of topics and learning methods for you to select from.

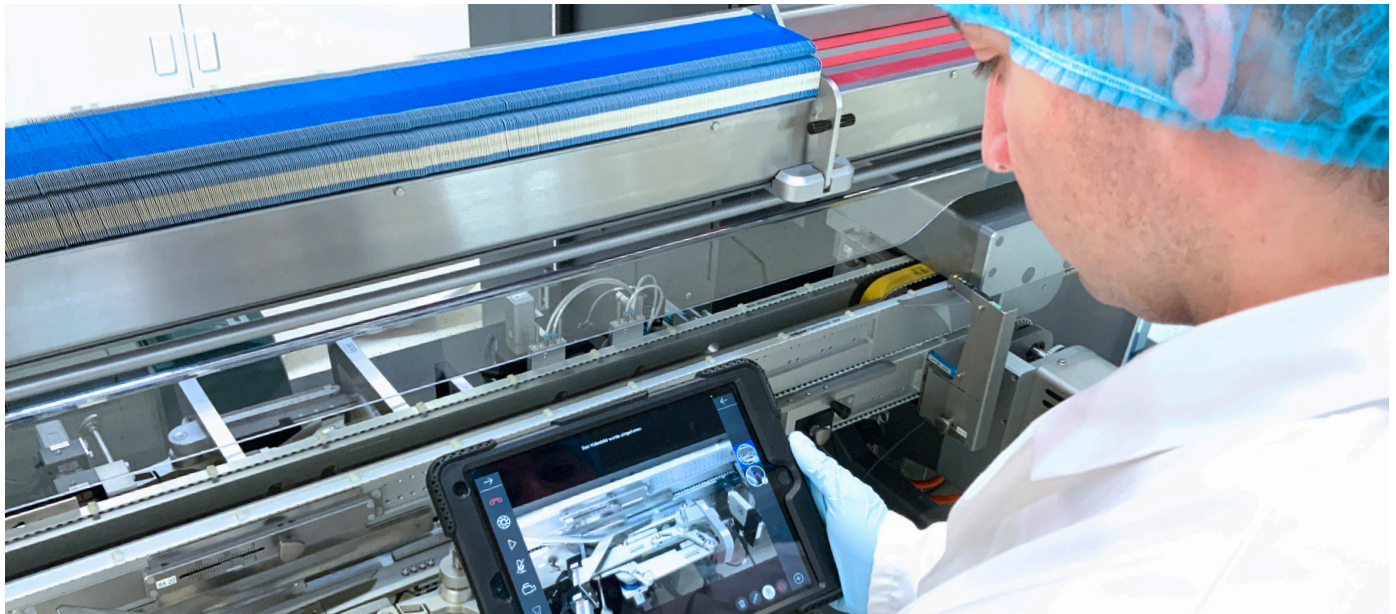

- Training with an instructor
- Web-based training
- Virtual classroom
- Blended training methods

## We deliver expert knowledge

**Whether on our digital platform, at your site, or at a Körber location. We support you with instructor-led training for the regular introduction of new technologies and processes as well as changes to regulatory guidelines.**

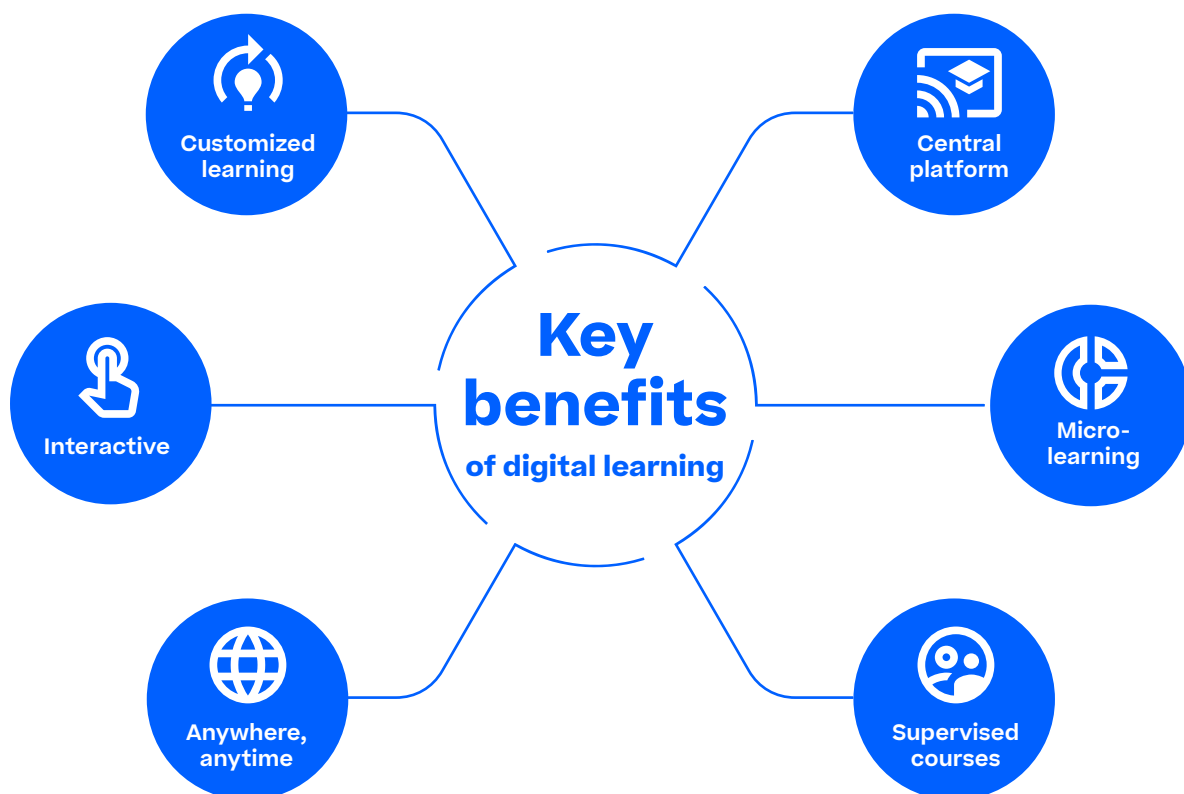

**Contact us directly. We are pleased to inform you about your various options.**

# Discover the key benefits of digital learning

Körper delivers innovative learning courses designed by our solution experts and experienced instructors. The learning content is ideally tailored to the respective level and core competence. Through the Academy, you have unlimited access at any time and thus gain more flexibility.

# Digital training for swift results

You can choose from a broad selection of courses and start your team development at any time. In addition, we constantly offer new courses tailored to your needs.

## Packaging machines

Familiarize new operators with the agile plant concept of our packaging machines or train experienced operators with an advanced training course up to expert level.

## Inspection

Courses cover the fully automatic\* and semi-automatic machines and make use of high-quality 3D visualizations, that keep the learner engaged at all times.

## Handling systems

Give your employees the tools they need to effectively drive your production. Short tutorials and best practices provide the knowledge and experience that will motivate your team.

## Online courses at a glance

### Operator & Maintenance Training

# We have you covered, always and everywhere

With local offices around the world we support you wherever your business is located.

## About Körber

We are Körber – an international technology group with about 10,000 employees, more than 100 locations worldwide and a common goal: We turn entrepreneurial thinking into customer success and shape technological change. In our five Business Areas Digital, Pharma, Supply Chain, Tissue and Tobacco, we offer products, solutions and services that inspire. We respond quickly to customer needs, we implement ideas seamlessly, and our innovations create added value for our customers. We are increasingly building on eco-systems that solve the challenges of today and tomorrow. Körber AG is the holding company of the Körber Group. We are the home for entrepreneurs – and turn entrepreneurial thinking into success for our customers.

## Delivering the difference in pharma

At the Körber Business Area Pharma, we deliver the difference along the entire pharmaceutical value chain by offering a unique portfolio of integrated solutions. Based on in-depth experience spanning consulting, inspection, transport systems, packaging machines and materials, track and trace and software, we understand the challenges in pharmaceutical processes and regulation that our customers face day to day, from the beginning to the end of their production. For them, we deliver the difference to unlock the potential of global pharmaceutical and biotech manufacturing.
